

AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS

Claim 1 (currently amended): A hand tool, comprising:

a main body provided with a mounting portion including a plurality of arcuate protruding faces and a plurality of receiving recesses located between the protruding faces;

wherein, each of the receiving recesses of the mounting portion has a relatively smaller arc-shaped corner; [[and]]

each of the protruding faces of the mounting portion has a relatively larger arc-shape to enhance a contact area of each of the protruding faces with a workpiece;

the proportion of ~~the depth~~ a radius of curvature of each of the protruding faces of the mounting portion and ~~the~~ a distance between the corner of each of the receiving recesses and the corner of an adjacent receiving recess is equal to 1: 1.6.

Claim 2 (original): The hand tool in accordance with claim 1, wherein the protruding faces of the mounting portion are arranged in an annular manner.

Claim 3 (original): The hand tool in accordance with claim 1, wherein each of the protruding faces of the mounting portion is extended radially inward toward a center of the mounting portion.

Claim 4 (original): The hand tool in accordance with claim 1, wherein the receiving recesses of the mounting portion are arranged in an annular manner.

Claim 5 (original): The hand tool in accordance with claim 1, wherein each of the receiving recesses of the mounting portion is extended radially outward from the center of the mounting portion.

Claim 6 (canceled)

Claim 7 (original): The hand tool in accordance with claim 1, wherein the mounting portion is mounted on an upper end of the main body and has an outer wall formed with the arcuate protruding faces and the receiving recesses.

Claim 8 (original): The hand tool in accordance with claim 7, wherein the mounting portion has an inner wall formed with a through hole.

Claim 9 (original): The hand tool in accordance with claim 1, wherein the mounting portion is mounted on a lower end of the main body and has an inner wall formed with the arcuate protruding faces and the receiving recesses.

Claim 10 (original): The hand tool in accordance with claim 1, wherein the main body has a lower end having an inner wall formed with a hexagonal recess.

Claim 11 (original): The hand tool in accordance with claim 1, wherein the main body has an upper end having an inner wall formed with a through hole.
